Customizing Materials

Type your name, address, phone number, and email address as you would like them to appear on the printed document. If you have completed your User Profile, these fields will populate automatically.

If you chose to include a logo, upload a .PNG or .JPG image file. The image should be cropped so that no extra white space exists around the edges of the logo.

Once you have added your imprint information, click **Review & approve**. On the next screen, examine the preview image to ensure that your imprint is correct.

Check the box labeled **Proof is approved**, then click **Add to cart**.

To make changes to your imprint after it has been approved, find the customized item in your shopping cart and click the "pencil" icon.
